HOBBY'S

Playing Cricket
Learning new Languages
Reading Novels

EDUCATION

Junior High School

Mount Carmel School Una

2012-2021
Achieved 85% in my 10th Standard from ICSE Board.

High School

MIADAV Mehatpur

2021-2023
Achieved 65% in my 12th Standard from CBSE Board.

Bsc. Computer Science

Richmond American University London

2024-2027
In 1st year with a CGPA of 3.33 in 1st term.

LANGUAGES

Python
Java
Javascript
HTML & CSS

PROFILE

I am Raghav Chabba a student of Richmond the American University London currently enrolled in their Bsc Computer Science course. I am in my freshman year and received an overall CGPA of 3.33 in my 1st term examination. I have already learned the basics of OOP's with 7 years of experience in java as a student and 4 years in python and currently I am working on my skills for Web-Dev by learning HTML, CSS & JavaScript. I am fully determined to work or rather strive for perfection in this swiftly changing demesne and pave my way to success and achieve new height.

PROJECTS

- Worked in a Group project of 2 people in high school to make a hotel management project in which I contributed with my python code and he helped me connect it to mySQL to store the information of the guests.
 - Grade Received:- A.
 - This project helped me to learn the basics of OOP's in python
 - A detailed overview on how to use functions correctly with mySQL.
 - This also taught me on how to call different functions to optimize their use.
 - How to work with python Libraries
 - How to use a Connector Library and creating cursor objects.
- Worked in a Group project of 3 people in 1st Semester to make a library management system and also build an User Interface with tkinter and included the different functions to manage a library. and I mainly contributed to the part of building the user Interface and 3 functions which included to Delete a Book form the Library/ Borrow a book and add new book.
 - Grade Received:- B+
 - This project helped me to learn about tkinter.
 - An overview of how to use classes in python.
 - How to use display the results optimally to the user.
 - How to work in a team environment.

Expertise

- Problem - Solving
- Adaptability to new technology
- Data - Driven Decesion Making
- Proficient in writing neat code
- Logical thinker

Personality Profile

- Goal Oriented, Problem Solver, Enthusiastic And Ambitions.
- Self-Motivated and Endorsed with Leadership Quality.
- Enjoy Working with Team Environment.
- Good Analytical Skills and Self-Confidence

RAGHAV CHABBA

UNIVERSITY STUDENT

TO WHOM IT MAY CONCERN,

I am a highly motivated and goal-oriented Computer Science undergraduate at Richmond, The American University in London, with a solid academic foundation and practical experience in software development. Having achieved a CGPA of 3.33 in my first term, I possess strong analytical skills and a passion for tackling challenging technical problems. Over the course of 7 years with Java and 4 years with Python, I have developed expertise in Object-Oriented Programming (OOP), logical thinking, and writing clean, efficient code.

My hands-on experience includes designing and implementing projects such as a Hotel Management System using Python and MySQL, where I contributed to connecting databases and optimizing functions, and a Library Management System featuring a user interface developed with Tkinter. These projects not only enhanced my technical skills but also helped me learn teamwork, collaboration, and delivering solutions to real-world challenges.

Currently, I am expanding my technical expertise in Web Development (HTML, CSS, JavaScript) and exploring innovative technologies that push the boundaries of what's possible in automation and robotics. With a strong aptitude for problem-solving, adaptability to new tools and technologies, and a data-driven approach to decision-making, I am eager to contribute to Ocado Group's forward-thinking projects.

I thrive in collaborative environments and am driven by a passion for learning and applying emerging technologies to create impactful solutions. Joining Ocado Group's Internship Programme would allow me to channel my enthusiasm for cutting-edge innovation and be a part of a team that is transforming the future of technology and online retail.

SINCERELY,

RAGHAV CHABBA
